PROFESSIONAL SUMMARY

Computer Science undergraduate with strong fundamentals in software development, web technologies, and applied AI. Experienced in building scalable projects, robotics systems, and data-driven applications. Seeking opportunities to contribute to high-impact engineering teams while continuously improving technical depth.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C++
Web: HTML5, CSS3, Node.js, REST APIs
AI & Data: OpenCV, NumPy, Pandas
Databases: MySQL
Tools: Git, GitHub, VS Code, WordPress, Figma

EDUCATION

Bachelor of Technology (B.Tech) – Computer Science Engineering
GCRG Group of Institutions, Lucknow

PROJECTS

Humanoid Robot
- Designed and built a functional humanoid robot capable of movement and command-based interaction.
- Implemented basic AI logic and hardware-software integration.

AI Chatbot
- Developed an AI-powered chatbot for automated user query handling.
- Integrated APIs and optimized conversational logic.

E-Commerce Website
- Built a scalable e-commerce platform with cart and payment features.

College Website
- Developed a dynamic college website improving information accessibility.

Weather API Application
- Implemented a real-time weather forecasting app using OpenWeather API.

ACHIEVEMENTS

Science Fair 2025 Winner – Awarded for building a functional humanoid robot.
Participated in 2+ Hackathons focused on rapid problem-solving and collaboration.

CERTIFICATIONS

Certified Computer Application Specialist
Certified FEA

SOFT SKILLS

Critical Thinking, Problem Solving, Analytical Reasoning, Team Collaboration, Adaptability

LANGUAGES

English (Fluent)
Hindi (Fluent)
